SOME NEW CARDS FROM OBJECTABLES

HELLO

Welcome to the last year of recognisable human life on earth everybody!

'Surely not!' I hear you say.

'Probably not!' I say back to you.

No, but really, of course humans aren't going to wantonly destroy themselves. Love and common sense will prevail and all will be well. And do you know how everyone is going to let each other know that everything is going to be ok?

By sending cards, *obviously*.

So yeah, this is defo the time to stock up on loads of new cards. Forget water, tinned peas and jars of hotdogs, it's going to be cards everyone is fighting over this year.

Luckily for you, we have designed some right corkers for Twenty Twenty Five, which are undoubtably going to give you the advantage in the oncoming rush to spread the love.

Yay for you.

We've also popped some stuff in from last year as a bit of nostalgia and also to save on paper, which considering the number of cards we are going to have to print this year can only be a good thing.

Enjoy.

CATALOGUE

Just to be clear, this is only a small amount of the wonderful cards we make. Use this QR code to see the full catalogue, or if you ask very nicely we will send you a hard copy. Alternatively just buy all the cards we have ever made then you won't need to make a decision. The choice is yours.
