Objectables

HELLO

Well it's time for us to make some more stuff in the hope that you might buy it so we can pay our lovely staff long enough to get us round to the next point where we have to make a load of new stuff again. What a delightful cycle of capitalist monotony we have built for ourselves.

Anyway, here's a load of new daftness. Some new It's Bin Ages cards because it turns out people love bins, some new Fun Fairs because they are brilliant, and some new beautiful Annie Gould plant paintings. On top of all those lovelies we are launching a new range of fine art cards, or more precisely shit toast art cards. Enjoy. Oh. Wrap. We make wrapping paper now too. Gosh, glad I didn't forget that. Cheers!

WRAPPING PAPER!?!

The honest truth is that it has taken us over ten years to get around to making wrap because every time someone says "Shouldn't we do some wrapping?" One of us (me) starts singing "I said a hip-hop, the hippie, the hippie to the hip, hip-hop and you don't stop the rockin' to the bang-bang boogie, say up jump the boogie to the rhythm of the boogie, the beat....."

So basically it never happened.... Until now.

CATALOGUE

Just to be clear, this is only a small amount of the wonderful cards we make. Use this QR code to see the full catalogue, or if you ask very nicely we will send you a hard copy. Alternatively just buy all the cards we have ever made then you won't need to make a decision. The choice is yours.

SHIT TOAST ART

About a year ago I asked my daughter what she wanted for breakfast. "Toast." she answered. "Brilliant." I thought, I can do toast. "Art toast." she added. "Oh."

"What's art toast?" I asked. "Toast with art on it." she explained. "Oh." Now anyone who has bought our cards before will be fully aware that I am not an artist so I thought I'd get some inspiration from actual artists. After a while of muttering and struggling with a jammy butter knife, I presented my daughter with my own toast based recreation of Girl with a Pearl Earring and received a muted "Thanks." This overwhelming outpouring of love and gratitude drove me on, and before I knew it I was making toast art every week. I was like a machine. A shit art toast machine.

NEW Peanut Butter Pumpkin STA04

Eventually, as with all great artists, I couldn't be arsed anymore and slowly reverted back to feeding her plain toast. However, somewhere inside me, I imagined one day I could share my shit art toast with the world. Weirdly everyone else at Objectables got really bored with me noodling away with jam and peanut butter for days on end but I persisted! Eventually I was treated to an emphatic "Oh for fuck's sake let's just do it then!" So here we are. Shit Art Toast was born.

ENJOY.
